**FULL VISIBILITY.  
LESS GUESSWORK.  
FEWER DELAYS.**

Bestbar's digital platform  
for managing your reinforcing  
orders and site deliveries.

**REONET**  
BY BESTBAR®

## WHEN YOU SEE MORE, YOU CAN SAVE MORE TIME AND HEADACHES ON THE JOB.

Construction flows more efficiently with ReoNet. Developed by Bestbar, the platform gives site managers and crews instant access to their steel order schedules and documentation—anytime, anywhere. That means less phone calls, chasing paperwork, and wondering when your order is going to arrive.

## REAL RESULTS, REAL STORIES.

“Bestbar’s ReoNet platform provided transparency, traceability and efficiency in the delivery of reinforcement for the project and offered a reconciliation tool for both supply and fix.”

**Multiplex,  
Project Manager**

“The ReoNet platform is really good; everybody should be using it. My job would be infinitely harder without ReoNet, saves me a week a month.”

**Courtly Reo  
Danny Finn, Project Manager**

“ReoNet enables our teams to manage projects efficiently & monitor our information & deliveries.”

**Delta Group  
Luke Southwell, Project Manager**

### Avoid on-site delays and uncertainty

With ReoNet’s tracking system, you’ll always know where your order stands, avoiding any unwanted surprises that can delay your concrete pour. From initial order to final delivery, it ensures you’ve got complete visibility and that nothing is missed.

- Live delivery status
- Update delivery dates
- Proof of delivery photos
- View delivery history

### All your job documents in one place

Spend more time on the job, and less time chasing documents like invoices and bar schedules. ReoNet allows you to view, download and print your documents from any device.
